The BARD® TOUCHLESS® Plus Intermittent Catheter System

The BARD® TOUCHLESS® Plus Intermittent Catheter system has what is known as a “closed system” designed to help reduce the risk of urinary tract infections. Among the features that you’ll find helpful are:

- 1 Insertion tip** correctly positions the catheter in the urethra to help reduce UTIs.
- 2 Catheter control guide** allows control of catheter insertion with the touch of a finger.
- 3 Tapered neck design** decreases cuts and scrapes associated with sharp corners.
- 4 Catheter cap** has pull ring for easy removal.
- 5 Pre-lubricated catheter** reduces discomfort during insertion.
- 6 Large 1100cc collection bag** is durable, virtually eliminating the risk of leaks.

Complete instructions for use included in product packaging.

Easy to Use

Easy to insert, easy to use, easy to remove - the features needed to enhance convenience and usage.

- Catheter cap has pull ring for easy removal
- Pre-lubricated catheter reduces discomfort during insertion.
- Large 1100cc collection bag is durable, virtually eliminating the risk of leaks.
