RIGHT PATIENT, RIGHT PRODUCT, RIGHT RESULT

Product Training and Education

Achieving and sustaining excellence starts with a Quality Product supported by an effective Training Program.

- BARD's training and education team provides customer-centric training to help ensure proper utilization of Bard's products*
- Right Patient, Right Product, Right Result*

Options Available for Foley Product Training and Stool Management System Product Training

FOLEY PRODUCT TRAINING

Foley Assessment and Data Tools:

- **Foley Product Training Assessment**
 1. Provide data that will assist in providing training to the hospital on:
 - o Proper use of products consistent with the Instructions For Use (IFU)
 - o Developing an inventory mix of catheters and drainage systems that best meets the needs of patients and caregivers
- **I.C. Data collection**
 1. Establish and/or compare hospital wide CAUTI rates in patients receiving standard Foley catheters and patients receiving BARDEX® I. C. Foley catheters
 - o Retrospective medical record review and data abstraction. Record selection based on positive urine cultures among hospital in-patients

Live Product Training Delivery

- **Training option 1: Best Practice Foley Product Training with Simulation**
 1. Advances education and training while empowering staff to take active roles in on-going CAUTI Prevention initiatives
 2. Creates Champions/Super-Users for BARD® Foley catheters on majority of units within hospital
 3. Demonstrates proper use of products with regard to the Instructions For Use (IFU)
 4. Provides information necessary for caregivers to choose from inventory mix of catheters and drainage systems that best meets the needs of patients
 5. Supplemental roaming training for product change awareness
- **Training option 2: Classroom-based training**
 1. Pre-arranged sessions on limited number of units
 2. Provide training in classroom setting
 3. 15-30 minute sessions providing product training to include patient selection, and care and maintenance of device
- **Training option 3: Roaming only**
 1. 5 minute unit to unit product awareness and information sessions
 2. On unit, at nurses station
 3. Overview only
